

My name is **Carmen Correa** and I have lived in the United States for seven years. Currently, I'm working at a construction company as a bookkeeper. Previously, I worked as a business manager and supervisor in Venezuela. I completed two associate degrees in accounting and in human resources in Venezuela as well. I can maintain financial records and accounting information using Quickbooks Online. I'm honest with a great sense of humor, strong communication, and leadership skills. I'd like to continue developing my knowledge in accounting and expand my experience in the field. I am a fast learner and would like to know more about the GAAP in the U.S. I am a native Spanish speaker with strong conversational English. Please contact me if you have any related opportunities. I'd love to speak with you.
