

Manufacturing Jobs in the U.S.

What is Manufacturing?

Manufacturing means making products in factories or production spaces. These products can include food and beverages, clothing, electronics, machines, building materials, or medical supplies.

Is Manufacturing Right for You?

- Do you like working with your hands? 🖐️
- Do you enjoy taking things apart to see how they work? ⚙️
- Can you put things together by following instructions? 🧩
- Do you know how to use tools? 🛠️

If you answered "yes" to most of these questions, manufacturing might be for you!

Common Entry-Level Manufacturing Jobs:

- **Team Assembler:** Put together parts to make a product. Work on a team and follow step-by-step instructions.
